

Bhawneet Singh Lamba

Infrastructure Security Consultant & Network Expert

Whitefield, Bangalore, India | +91 8447732553 | bhawneetlamba@outlook.com
[linkedin.com/in/bhawneet-singh-lamba-92632064/](https://www.linkedin.com/in/bhawneet-singh-lamba-92632064/)

Highly skilled Infrastructure Security Consultant with over 13+ years of experience in Network Access Control (NAC), AAA protocols, and network architecture. Proven track record in deploying and managing enterprise-scale security solutions including Cisco ISE and Aruba ClearPass. Expert in security incident resolution, root cause analysis (RCA), and complex system upgrades. Committed to maintaining high infrastructure availability and security posture through meticulous change management and vulnerability mitigation.

TECHNICAL SKILLS

- **Security Solutions:** Cisco ISE (2.x/3.x), Aruba ClearPass, Cisco ACS, Web access Firewall (WAF).
- **Protocols:** RADIUS, TACACS+, 802.1x, MAB, WebAuth, EAP-TLS, TCP/UDP, DNS, DHCP.
- **Web Security:** AWS WAF, Azure WAF, F5 WAF.
- **Cloud & Infrastructure:** Microsoft Azure.
- **Frameworks:** ITIL Foundation (Incident, Problem, and Change Management), SLA Adherence.

EDUCATION

Master of Technology (M.Tech) | Birla Institute of Technology and Science (BITS), Pilani

January 2022 – December 2024 | Grade: 8.02

Bachelor of Technology (B.Tech) | Quest Group of Institutions

2009 – 2013 | Grade: 74%

CERTIFICATIONS

- **Cisco Certified Network Associate (CCNA) Routing and Switching** – Cisco
- **ITIL Foundation** – AXELOS Global Best Practice
- **Microsoft Azure Essentials Professional** – Microsoft (Issued May 2026)

PROFESSIONAL EXPERIENCE

Consultant | HCLTech

March 2025 – Present

- **Incident & Resolution:** Perform L2/L3 triage on critical monitoring alerts (high CPU, policy service crashes). Conduct deep-dive RADIUS/TACACS+ log analysis to isolate policy misconfigurations or supplicant errors.
- **Problem Management:** Correlate NAC operational logs with adjacent infrastructure to identify and remediate recurring incidents, ensuring alignment with vendor best practices.
- **Change Management:** Implement controlled lifecycle changes to authorization policy sets, guest workflows, and onboarding rules via phased rollouts with CAB approval.
- **Upgrades & Maintenance:** Plan and execute non-disruptive ISE 3.x cluster upgrades. Manage full certificate lifecycles, including proactive EAP-TLS/WebAuth renewals and Trust Store integrity.

Professional Services Engineer | Cognizant

August 2022 – February 2025

- **Architecture & Implementation:** Designed and deployed comprehensive security solutions across hybrid (on-premises and cloud) environments.
- **AAA Expertise:** Led the deployment and management of Cisco ISE and Aruba ClearPass servers, establishing secure authentication via 802.1X protocols.
- **Web Security:** Implemented WAF solutions (AWS, Azure, and F5) to protect business-critical applications from Layer 7 attacks.
- **Compliance:** Maintained rigorous documentation of security policies and procedures, generating status reports on vulnerabilities and regulatory compliance.

Lead Administrator – Infra Security | Wipro

October 2021 – August 2022

- **Team Leadership:** Led a team of Network Security Engineers, ensuring 100% compliance with Service Level Agreement (SLA) metrics and infrastructure availability.
- **Operational Management:** Handled NAC solutions (Cisco ISE/Aruba ClearPass) and supported F5 LTM/ASM infrastructure.
- **KEDB Ownership:** Assumed ownership of the Known Error Database (KEDB), establishing systematic processes for team-wide adherence and proactive risk management.

Network Engineer – Cisco TAC | Altran

March 2019 – October 2021

- **Technical Support:** Provided expert systems design and design recommendations for Cisco ISE Version 2.x and Cisco ACS.
- **Systems Advisory:** Deliver expert architecture recommendations and configuration guidance for Cisco ISE 2.x/3.x ecosystems.
- **Deployment:** Execute greenfield Cisco ISE installations across physical appliances and virtualized environments.
- **Administrative Control:** Manage granular Cisco ISE administrator access and RBAC policies.
- **Policy Management:** Configure and troubleshoot complex ISE authentication and authorization policy sets.
- **Lifecycle Maintenance:** Oversee patching, version upgrades, licensing, and disaster recovery via backup/restore procedures.
- **Identity Integration:** Facilitate seamless integration with Active Directory and various external identity providers.
- **Guest Services:** Deploy secure guest workflows including sponsor portals, self-registration, and SAML-based SSO.
- **Device Administration:** Leverage ISE as a TACACS+ server to secure administrative access for multi-vendor network hardware.
- **Access Control:** Utilize ISE as a RADIUS server to enforce robust 802.1X and NAC security standards.
- **Endpoint Onboarding:** Streamline BYOD registration processes and secure personal device access.
- **Profiling:** Implement endpoint profiling for granular visibility into wired and wireless user environments.
- **Ecosystem Integration:** Engineer advanced integrations via PxGrid with FMC, DNAC, and StealthWatch platforms.
- **MDM Compliance:** Synchronize security postures through IBM MaaS360 and Microsoft Intune MDM integrations.
- **Core Networking:** Proficient in foundational protocols including RADIUS, TACACS+, DHCP, DNS, and the TCP/IP suite.
- **System Integration:** Executed integrations using PxGrid, ISE-FMC, ISE-DNAC, and Stealth Watch.
- **Advanced Troubleshooting:** Managed ISE Guest access, BYOD onboarding, and profiling for wired/wireless users. Resolved complex hardware failures, licensing issues, and database restores.

Sr. Network Technician | Convergys

October 2013 – March 2019

- **Incident Management:** Handled priority technical issues, providing optimum resolution for high-impact infrastructure disruptions.
- **Platform Support:** Managed troubleshooting for Linux and Citrix platforms, supporting Active Directory and Group Policy implementations.
